

Vermilion County Animal Shelter  
 14475 Catlin-Tilton Road  
 Danville, IL 61834  
 217-431-2660

Did you know??

We use 146,000 lbs of dog food a year. This does not include animals that need canned food to take medicine or require more feedings or special diets.

We use 75,000 lbs of cat food a year. This does not include the amount of canned cat food for medicine or kitten chow and kitten formula that we buy for the litters of kittens we take in at the shelter each year.

We use 3,650 lbs of litter a year on an average.

We use 1,460 gallons of bleach. This does not include the special disinfectant we use to clean the kennels and holding cages for our animals.

Did you know we do over 800 loads of laundry a year?

This year we have taken in over 2500 animals into our shelter. We take care of the missing, the forgotten, and the neglected.

How can you help? Please consider making a small donation of one or two of these items on a weekly or monthly basis. Stick a reminder in your phone or your calendar! Every bag, can, and jug make a huge difference to the work we are doing here at the shelter.

Merry Christmas from the Staff and Furry Friends of the Vermilion County Dept of Animal Regulation and Animal Shelter!
